PROFESSIONAL SUMMARY

Systems Engineer @Infosys || Stanford University Course Work'22 || Amazon Intern'20 || Personal Secretary Advisor of Gandhi Desam Social Welfare Trust Official'21 || Advisor of Sri Krishna Agritech'21 || Board Member of studies at ANU University || Indian Stock Securities Advisor || Angel Investor || Team Leader for Project-G (DRDO)'19 || NSF'20 Scholar.

EDUCATION

Masters in Business Analytics , University of New Haven, New Haven, CT, USA	Aug 2023 – May 2025
Coursework: Stanford University online , Innovative & Entrepreneurship, California, USA	Nov-2022
Bachelor of Technology, Civil Engineering , Acharya Nagarjuna University AP, India	Aug 2017 - Aug 2021

TECHNICAL PROFICIENCIES

AWS, Azure, Google Cloud Platform, Microsoft Power Business Intelligence, SAP, Tableau, SQL, R, Python, Java, JavaScript, CSS, HTML, Spring Boot, MySQL, Web Development, UX, MATLAB, Unity 3D (AR VR), Salesforce, Arduino, Simulink, ReactJS, CATIA, SIMULIA co design, Microservices Architecture, Microsoft Tools Advanced Excel

PUBLICATIONS AND PATENTS

- A Novel Centralized IoT Based Cloud Engaged Self Sustainable Herbal Liquid Carrier for Logistics & Supply Chain Management System: German Patent (International), DNR: 20 2022 103 189.4, Code: G11586DE
- Design & Development of Bullet Proof Vest: ANU Journal of Engineering and Technology, ISSN:- 0976- 3414
- Traffic Volume & Speed Studies at Urban Stretches: Under the Esteemed Guidance of Head of Department Professor Dr.T.V. S VARALAKSHMI

EXPERIENCE

THE CENTER FOR K12 STEM EDUCATION – UNH (STEM Leader & Trainer), CT, USA Dec 2023 – Feb 2024

- Led a transformative STEM education program, instructing and inspiring a cohort of 30 middle & high school students in the fields of sound and microcontrollers, data mining, fostering their curiosity and academic growth.
- Provided mentorship and training to a team of instructors, enabling them to deliver exceptional Data Analytics and programming programs to a diverse range of students in middle school and high school settings.

SYSTEMS ENGINEER, INFOSYS, Mysore, India Feb 2022 – oct 2023

- Led development for a US healthcare client's web app, to track business statistics across Performance Dashboard, Pipeline Manager, and Leads, improving efficiency by 20%. Built all three modules using React, Node.js, CSS, and Redux and boosted test script effectiveness by 30% with Karma.
- Conducted root cause analysis, ensuring minimal impact on existing functionalities during system changes. Leading to a 10% decrease in mean time to resolution (MTTR) for critical incidents.
- As a key developer for an India-based shipping logistics client, automating operations by 25% with TypeScript, Bootstrap, Jasmine karma, Angular 6, Postman, Source code, Zeplin were previous one being recorded manually.

PERSONAL SECRETARY ADVISOR, Gandhi Desam social welfare trust, India May 2020 – Feb 2022

- Contracts Negotiating and secured strategic partnership with key technology providers with government bodies resulting in an increase in 40% operational efficiency in Aided individuals across 27 regions, addressing their needs.
- Presented a project for SEBI formalities, facilitating the company's entry into the Indian Stock Exchange Market.

ENGINEERING INTERNSHIPS & WORKSHOPS:

AMAZON.IN, Logistics, India

Jan 2020 – Mar 2020

- Employed data-driven decision-making in operations management to identify inefficiencies in supply chain processes, resulting in a 15% reduction in lead times and a 35% increase in on-time deliveries.
- Orchestrated a database management overhaul, leveraging advanced data forecasting prediction techniques to optimize inventory levels and reduce holding costs by 20%.
- Implemented real-time production monitoring, cutting downtime by 15% via proactive maintenance.

SRI KRISHNA AGRITECH, AP, India

Mar 2020 – Apr 2020

- Reached over 200 farmers, achieving ₹1.5 crore turnover in one month and enhancing product offering in leading to a 40% increase in customer satisfaction.
- Introduced subsidies and collaborations with ministries, benefiting farmers through modern farming technologies.

LEADERSHIP AND CAMPUS INVOLVEMENT

Start-Up and Innovation Cell Student Coordinator

Feb 2019 – Aug 2022

National Service Scheme Student Coordinator

Jun 2018 - Aug 2022

- Held a campus leadership position for 3 Years. Coordinated & supervised various programs in collaboration with NSS (Central GOVT Unit).

PROJECTS & RESEARCH

- Developed and implemented the Hybrid Soft Actor-Critic with Large Language Model (HSAC-LLM) algorithm for global supply chain logistics, Data Visualization and Forecasting
- Led a team of four engineering students in the design and development of the Level 4 Ultra-Strong Bulletproof Vest [Project-G] for the Indian Armed Forces, recognized by DRDO. The project received the Best Innovative Project award at a national-level fest conducted by ANUCET in February 2019.
- Presented a patented startup model in India and Created a comprehensive business model for a paper bag business.
- Developed websites and Android applications using HTML, Java, and C++ code, with ASP.NET for diverse user interfaces and ASP-class based applications for database storage.
- Pitched a startup project focused on local business ideas for sustainable development with Y.S. Jagan Mohan Reddy, Chief Minister of Andhra Pradesh, Government of India.
- Led a team of three to design a solar-powered motorboat, recognized by both print and electronic media, and awarded Best Project on National Science Day 2014.

CERTIFICATIONS

- Global Supply Chain Management with AI Supervised Machine Learning
- AZ 900: Microsoft Azure & ITSM Fundamentals
- Certified SOC Analyst (CSA) Information Technology Privacy by Design
- Business Communication Level 5
- Infosys Certified ITIL Foundation Associate & Service Now Administrator
- Infosys Global Agile Certification-course with Active Directory Administration using PowerShell Scripting

HONORS & AWARDS ACHIEVEMENTS

- Golden Torch of National Level Technical Fest ANUCET 2019
- National Level Tech Talks, 1st Prize LAKSHYA 2019
- Smart India Hackathon, Hardware Edition National 1st Prize.
- Student Engineering Model Competition 2nd place in Strategic Applications, “India International Science Festival”.
- Titan Wear Hacks, National Top 10 Best Innovation award.
- NSF & Swami Dayananda Merit scholarship award 2018-2019
- Paper Presentation at Young Scientist Conference, IISF 2020
- Collaborated With Team of 6 Classmates Won Engineering Volleyball Champion
